EDITOR'S PEN

We have created Vihaan with a lot of love and hard work for every one to read. I also encourage every one to participate in the creation of the magazine and contribute to it in whatever way they can. Learning makes us a better people, And gives us the power to conquer our world.

**Do not let class room education,
Makes you feel you have got in it
all; Remember what you know in
class, Is just 30% of shared
knowledge;
And the remaining 70% worth of education, You
get them through constant self-learning.**

**What you discover by yourself,
Is only what will live within your heart;
And this would only be made possible,
If you subject yourself to constant reading.**

**Deep knowledge is
gotten, When we
persistently read;**

**Deep learning, gives us a broader view of
life, And how to deal with different kinds of
people; That would forever constantly come
your way.**

Self-learning is a character builder,

**In all such would ever seek to do,
Should learn to make her a true
friend.**

**Get all the qualifications you ever
need, But if you fail to educate yourself;**

**Through daily continuous learning,
Then you have forever limited
yourself; Within the confinement of
limitation.**

A farewell is a expression of good wishes at a parting, where our final year students of B.Tech and MBA wholeheartedly and enthusiastically participated.

The juniors worked really hard in order to give a memorable farewell to the seniors. They put up dance performances and skits and made if quite a show.

The team of cultural programs worked eagerly and encouraged the students to participate and expose their hidden talent and to empower their aptitude.

These types of activities co-relate with student's daily basis tasks and make them even more powerful to make their goal achieved.
